ABOUT US

Since our humble beginnings in 1973, TOTAL LAMINATE SYSTEMS has been dedicated to delivering excellence in panel bonding and workshop manufacturing. Starting from a small unit in Dorset, our passion for quality and innovation has fueled over 50 years of growth and success.

Our mission statement is simple yet powerful:

The customer is the lifeblood of our business.

Ongoing commitment to staff training,

To exceed customer expectations,

Awareness of trends within our industry,

Laminate Systems synonymous with quality and service.

Today, our operations span an impressive 30,000 square feet across our state-of-the-art factories in Dorset and Oxfordshire. This expansion reflects our commitment to meeting the evolving needs of our customers with unparalleled manufacturing capabilities.

At TOTAL LAMINATE SYSTEMS, we specialize in the supply and installation of premium commercial washrooms. Our expert team provides nationwide coverage, ensuring businesses across the UK benefit from our trusted services and solutions. From design to installation, we pride ourselves on delivering projects that combine functionality, durability, and style. We are proud to offer an in-house estimating service, providing a full takeoff and marked-up drawings of our products. This service ensures accuracy, clarity, and a streamlined process for your project planning and execution.

Our knowledgeable sales advisors are on hand to offer expert guidance on our products, provide samples of laminates, and create mock-up cubicles to ensure every customer's needs are met leading up to the order being placed. Our internal project leaders (IPLs) oversee the design process, ensuring accurate drawings are prepared in CAD or Revit for review and sign-off prior to production. These drawings can be issued directly to clients or uploaded to relevant drawing systems such as Asite or 4P.

Our manufacturing process incorporates advanced technical methods such as CNC machining, edge banding, and rebating. These precision-driven techniques ensure that all products meet the highest standards of quality and are perfectly suited to your project needs. We also offer a comprehensive in-house install service, with contracts managers and skilled installers providing a nationwide service. Working closely with site teams, we ensure each project is completed to the highest standard, on time and within budget.

With a wide range of products on offer including cubicles, IPS panels, vanity units, lockers, benches, wall panels, general fabrication and our Award-winning Simplicity Clinical IPS units we can cater for a wide range of projects to suit many commercial sectors.

Join the many businesses that trust TOTAL LAMINATE SYSTEMS to create exceptional spaces. With decades of experience and a reputation for excellence, we're ready to bring your vision to life.

CUBICLES

For every space & budget

ELEGANCE 44

Elegance 44 our flagship premium cubicle solution designed for those who demand the very best in style and durability. With flush-fronted and hardwood-edged 44mm thick doors and pilasters, alongside 30mm thick partitions, this range offers a robust yet sophisticated aesthetic that stands out in any high-end commercial environment.

The Elegance 44 can be crafted in both High-Pressure Laminate and Real Wood Veneer finishes, providing versatility in design while maintaining exceptional quality. Equipped with Royde & Tucker hinges, a secure mortice lock, and soft-close dampeners, every detail has been meticulously engineered for both function and form.

The invisible fixings that join the partitions and pilasters ensure a seamless, premium finish that rivals the most luxurious options available on the market. Choose Elegance 44 for a truly elevated space.

FEATURES

- Durable product suitable for dry environments
- 44mm doors & pilasters with hardwood rebated edges
- 30mm thick partitions
- Premium Royde & Tucker hinges, mortice lock and dampeners for soft close
- Invisible fixings to connect both pilasters and partitions for minimalist appearance
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Manufactured in High Pressure Laminate & Real Wood Veneer

ELEGANCE 20

Elegance 20 flush-fronted cubicle system, meticulously crafted from 19-20mm moisture-resistant MDF board and faced with High-Pressure Laminate (HPL). This premium system features hardwood-edged rebated doors and pilasters, ensuring both durability and a seamless, sleek finish.

The Elegance 20 cubicle is designed specifically for dry environments, combining aesthetic appeal with robust construction, making it the ideal choice for high-end commercial spaces. With its flush-fronted design, it offers a modern and sophisticated look that enhances any interior while delivering long-lasting performance.

FEATURES

- Durable product suitable for dry environments
- Bolt through fixings & secretly fixed options available
- Hardwood edges to both pilasters and doors
- 2mm PVC lipped edges to partitions
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Manufactured only in High Pressure Laminate
- Available in over 100+ laminate colours

ELEGANCE 13

Elegance 13 flush-fronted cubicle system, designed to offer both style and durability. Crafted from 13mm solid grade laminate (SGL), this cubicle system is built to withstand the toughest environments, making it ideal for both wet and dry settings.

The Elegance 13 features rebated doors and pilasters, ensuring a seamless and flush appearance that exudes sophistication. The rebated design not only enhances the sleek aesthetic but also provides additional privacy and security.

FEATURES

- Versatile product suitable for wet and dry environments
- Bolt through or secretly fixed fittings
- Rebated edges to both doors and pilasters
- Machined and polished edges to all panels
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Manufactured only in Solid Grade Laminate
- Available in over 100+ laminate colours

METAL PILASTER SYSTEM

Welcome to our Metal Pilaster System (MPS) Cubicle, a sleek and durable solution crafted from high-quality, powder-coated aluminum. Designed with versatility in mind, the MPS Cubicle features curved pilasters and matching hardware, creating a stylish and cohesive look.

Available in any RAL finish, this hardwearing cubicle system can be customized to suit any aesthetic preference. Perfectly suited for dry environments, the MPS Cubicle is ideal for a variety of commercial settings, including offices, cinemas, and schools, where durability and modern design are essential. Explore a cubicle system that combines resilience with contemporary style to enhance your space.

FEATURES

- Durable product suitable for dry environments
- Bolt Through Fixings
- Powder Coated Curved Pilasters with matching hardware – can be coated to any RAL colour
- Doors and Partitions can be manufactured from various materials
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Manufactured only in Solid Grade Laminate
- Doors and Partitions available in over 100+ laminate colours

SHOCK LEISURE

Shock Leisure washroom system, expertly crafted from 13mm Solid Grade Laminate (SGL) to deliver exceptional durability and versatility. This system is designed to perform seamlessly in both wet and dry environments, making it an ideal choice for the sports and Leisure market.

Backed by a 10-year laminate warranty, the Shock Leisure washroom system offers reliable performance and peace of mind for years to come.

FEATURES

- Versatile product suitable for wet and dry environments
- Powder Coated tubular support frame for freestanding configurations
- Bolt through or secretly fixed fittings
- Machined and polished edges to all panels
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Shower cubicle can be supplied with a door or curtain
- Manufactured only in Solid Grade Laminate
- Available in over 100+ laminate colours
- 10 Year Warranty (Laminate Panels)

SHOCK 13

Shock 13 washroom system, expertly crafted from 13mm Solid Grade Laminate (SGL) to deliver exceptional durability and versatility. This system is designed to perform seamlessly in both wet and dry environments, making it an ideal choice for a wide range of commercial applications.

Backed by a 10-year laminate warranty, the Shock 13 washroom system offers reliable performance and peace of mind for years to come.

FEATURES

- Versatile product suitable for wet and dry environments
- Bolt through or secretly fixed fittings
- Machined and polished edges to all panels
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Shower cubicle can be supplied with a door or curtain
- Manufactured only in Solid Grade Laminate
- Available in over 100+ laminate colours
- 10 Year Warranty (Laminate Panels)

ENHANCED CUBICLE 3

Enhanced Cubicle 3 (EC3) washroom system, expertly crafted from 13mm Solid Grade Laminate (SGL) to deliver exceptional durability and versatility. This system is designed to perform seamlessly in both wet and dry environments, making it an ideal choice for a wide range of commercial applications.

Backed by a 10-year laminate warranty, the EC3 washroom system offers reliable performance and peace of mind for years to come.

FEATURES

- Versatile product suitable for wet and dry environments
- Bolt through or secretly fixed fittings
- Machined and polished edges to all panels
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Shower cubicle can be supplied with a door or curtain
- Manufactured only in Solid Grade Laminate
- Available in over 100+ laminate colours
- 10 Year Warranty (Laminate Panels)

ENHANCED CUBICLE 2

Introducing the Enhanced Cubicle 2 (EC2) Washroom System, a premium solution designed for durability and style in dry environments. Crafted from 19-20mm Moisture-Resistant MDF board and faced with high-pressure laminate, the EC2 system offers a blend of strength and sophistication. Its robust construction is complemented by high-quality stainless-steel hardware, ensuring longevity and resilience even in high-traffic areas.

Ideal for commercial settings, the EC2 washroom system is a hardwearing product that combines practicality with a sleek, modern aesthetic. Choose the EC2 for a reliable and visually appealing washroom solution.

FEATURES

- Durable product suitable for dry environments
- Bolt through fixings & secretly fixed options available
- 2mm PVC lipped edges to all panels (option to postform)
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Manufactured only in High Pressure Laminate
- Available in over 100+ laminate colours

ENHANCED CUBICLE 1

Enhanced Cubicle 1 (EC1) is a cost-effective solution that combines durability and style, making it ideal for projects where both quality and budget are priorities. Manufactured from 19-20mm PANOPREY faced moisture-resistant (MR) chipboard, EC1 offers excellent performance in dry environments.

The sleek design is complemented by stainless steel fittings, ensuring a modern appearance while maintaining the strength and reliability needed for dry areas. EC1 is the perfect choice for those seeking a balance of aesthetics and affordability without compromising on quality.

FEATURES

- Durable product suitable for dry environments
- Bolt through fixings & secretly fixed options available
- 2mm PVC lipped edges to all panels
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Manufactured only in PANOPREY faced MR Chipboard
- Available in 45 colours

CHILDRENS CUBICLE

Welcome to our Children's Cubicle (CC), a thoughtfully designed solution tailored for young users in schools, nurseries, and childcare facilities. Available in various materials, the CC Cubicle features shaped and lowered doors and partitions to ensure easy adult supervision, promoting a safe and supportive environment. With the flexibility to manufacture at multiple heights, the CC Cubicle meets a range of Department for Education (DfE) or client-specific requirements.

Equipped with robust powder-coated aluminum or stainless-steel fittings, this cubicle system is both durable and child-friendly—delivering a product that balances strength with a design made just for little ones.

FEATURES

- Durable product suitable for all environments
- Bolt through fixings & secretly fixed options available
- Powder Coated cubicle hardware – can be coated to any RAL colour
- Stainless Steel hardware also available
- Doors, Pilasters and Partitions can be manufactured from various materials
- Doors & Partitions shaped and lowered for adult supervision
- DDA Compliant turn lock with emergency release facility
- Pedestal legs adjustable to accommodate uneven floors
- Can be manufactured to suit various height requirements
- Available in over 100+ laminate colours

DAPS

For modern washrooms

INTRODUCTION

Discover our Duct Access Panel Systems (DAPS), the perfect combination of functionality and design flexibility for modern washrooms. Available in a wide range of finishes, including Panoprey, HPL, SGL, veneer, and tile backers, our DAPS allow you to create a washroom aesthetic that meets your exact vision. Featuring hinged access panels and various lock options, the system is designed for ease of use and secure access.

Unlike modular solutions, our DAPS are made to measure, ensuring a seamless fit for any size requirement. Whether for commercial or public spaces, this customizable system provides the ultimate in practicality and style, giving you complete control over your washroom design.

DAPS 1

Our Duct Access Panel System (DAPS) is the perfect solution for concealing pipework and services, creating a clean, streamlined environment that's both functional and visually appealing. Designed with practicality in mind, DAPS not only hides unsightly services but also provides easy access for maintenance, ensuring long-term efficiency. The sleek surfaces contribute to an environment that is simple to clean and maintain, promoting hygiene and reducing upkeep time.

With a variety of finishes available, including Panoprey, MDF, SGL, veneer, and tile backers, DAPS is versatile enough to suit a wide range of settings. From dry environments like offices and schools to wet areas such as leisure centres, gyms, and restrooms, this system is engineered to perform in all conditions. The durability of the materials, combined with its bespoke design capabilities, makes DAPS the ideal choice for creating a polished, low-maintenance space in any commercial or public environment.

FEATURES

- Panels are available in 5 different core finishes
- Access panels can be provided with hinged and lockable access (CAM or Security locks)
- All framework provided on our supply and installation service
- FSC certified products can be supplied to assist with BREEAM requirements
- Panels are not modular and made bespoke to suit various panel widths
- Can be manufactured to suit various height requirements
- Access Panels and Flashgaps are available in over 100+ laminate colours

VANITY UNITS & TROUGHS

Vanity Units & Wash Troughs

INTRODUCTION

At Total Laminate Systems, we specialize in creating premium vanity units and wash troughs tailored to meet your exact specifications. Each of our products is expertly crafted using only the finest materials and finishes to ensure exceptional durability and aesthetics.

Our bespoke vanity units are available in a variety of top-quality materials, including high-pressure laminate, solid grade laminate, and solid surface, offering flexibility to match your design preferences and functional requirements. For wash troughs, we exclusively use solid surface materials, delivering a

sleek, seamless finish that combines elegance with practicality.

With a wide range of customizable depths and widths, our products are designed to fit perfectly into any space, ensuring they meet the unique needs of your project. Total Laminate Systems provides the ideal combination of style, functionality, and precision craftsmanship.

Explore the possibilities with Total Laminate Systems – where bespoke design meets exceptional quality.

VANITY UNITS & TROUGHS

At Total Laminate Systems Ltd, we specialize in providing high-quality vanity units designed to cater to a wide range of environments and specific requirements. Our versatile range of materials ensures that we can deliver the perfect solution for your needs, whether it's for wet environments, high-use areas, or premium, hygienic spaces.

FEATURES

- Vanity tops are made available in 3 different core materials
- Wash troughs are made to bespoke lengths / widths to suit deck mounted or wall mounted taps
- Vanity tops can be provided with postformed upstands and down-stands
- Access panels can be provided with hinged and lockable access (CAM or Security locks)
- Vanity units / Troughs can be supplied on base units or wall mounted brackets
- FSC certified products can be supplied to assist with BREEAM requirements
- Vanity units / panels are not modular and made bespoke to suit various lengths / depths
- Can be manufactured to suit various height requirements
- Available in over 100+ laminate colours

LOCKERS & BENCHES

For Every Environment

INTRODUCTION

Our lockers and benches are available in a wide range of finishes, including woodgrain, solid colours, and custom designs, allowing you to create a look that suits your environment. Built with premium laminate materials, our products are designed to withstand daily use, offering exceptional resistance to moisture, impact, and general wear and tear.

Security is a top priority, which is why we offer a variety of lock options, from traditional key and padlock fittings to advanced digital, combination, and RFID locking systems. Whether you need secure storage for personal belongings in a corporate setting or high-performance lockers for a busy gym, we can customize your system to match your security requirements.

Our lockers and benches are designed for both dry and wet environments, making them perfect for changing rooms, swimming pools, spas, and other moisture-prone areas. With water-resistant properties and robust construction, our solutions provide long-lasting reliability in even the most demanding conditions.

Lockers

- **Construction:** 1-6 Compartments available. Powder Coated mild steel carcass, spot welded and pop riveted
- **Door:** Doors manufactured from 10/12mm solid grade laminate. A range of suppliers and colours are available
- **Lock:** Each door is fitted with a Camlock or Hasp and Staple lock as standard, other lock types available
- **Hooks:** Lockers are supplied with plastic hooks located on each side of the compartment (one & two compartments only)
- **Rails:** Coat rails are fitted in locker compartments 450mm deep and over (one & two compartments only)
- **Numbering:** Each door is supplied with a plastic oval number plate recessed into the door. Maximum of 4 numbers. Other numbering options are available
- **Colours:** Body is powder coated in colour 'Ice' as standard, colour options for laminate doors can be selected from TLS standard range
- **Stands/Seats:** Lockers can be provided with either stands or stands with seats on request

Benches

- **Premium Material:** Available in Solid Grade Laminate (SGL), our benches are built to withstand moisture, impact, and daily wear, making them ideal for wet environments and heavy-use areas
- **Flexible Support Options:** Choose from wall-supported, floor-supported, island or cantilevered bracket designs to suit your space and layout requirements
- **Seamless Integration:** Designed to pair perfectly with our cubicle and locker solutions, these benches create a cohesive and functional environment tailored to your needs
- **Powder Coated Mild Steel Frame**

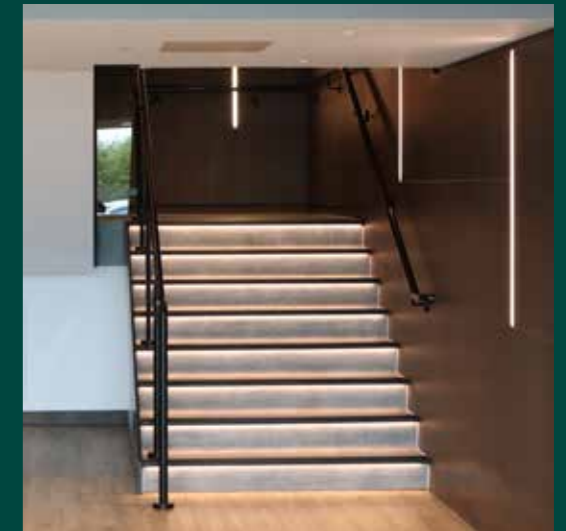

WALL PANELS

Transforming commercial spaces

INTRODUCTION

Introducing Simplicity, our innovative wall panelling system designed to transform commercial spaces with ease and elegance. At Total Laminate Systems Ltd, we specialize in creating solutions that bring your interior design visions to life, and Simplicity is no exception.

Available in three distinct types and constructed using three high-performance core options, Simplicity combines aesthetic appeal with robust functionality. Each design is carefully curated to meet the demands of modern commercial environments, ensuring durability and ease of installation without compromising on style.

TYPES

Simplicity Fast Clad Wall System

- **Material:** 19-20mm pre bonded boards
- **Support Frame:** 19mm-20mm pre bonded backing board with CNC cutouts (packed where required)
- **Fixings:** Hook & Peg
- **Finished Look:** Front mounted panels onto traditional frames

Simplicity Pre-bonded Flush System

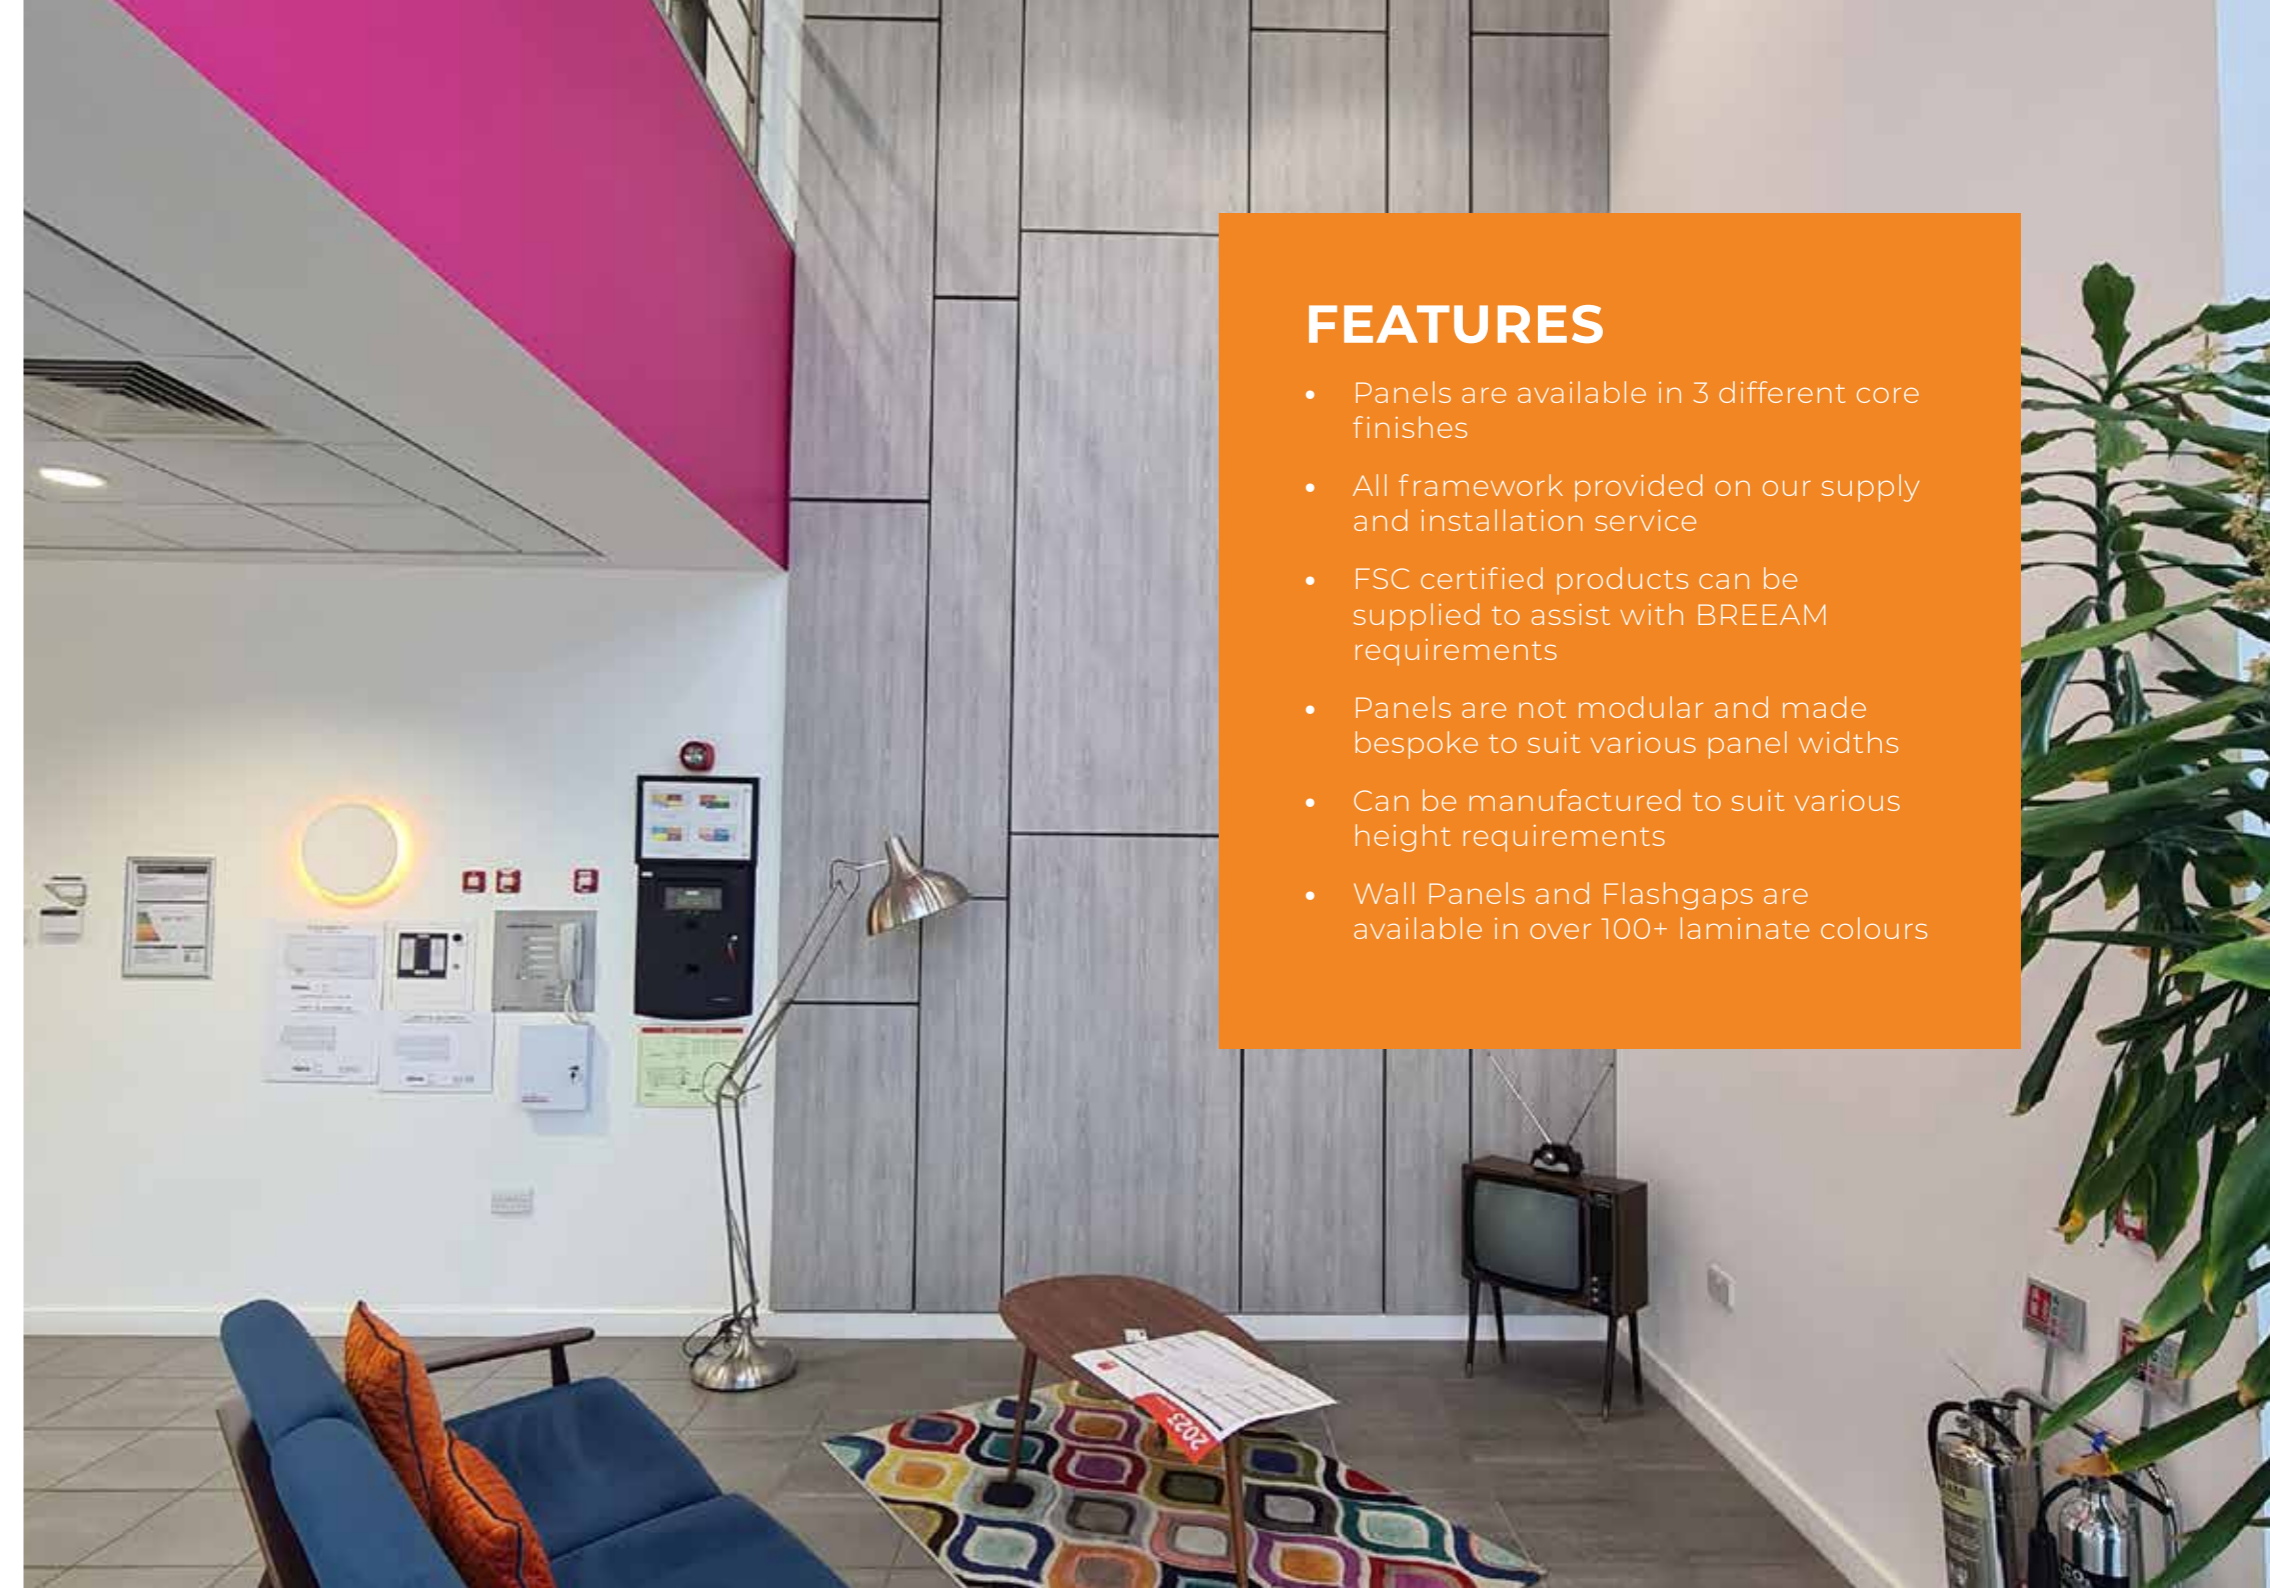

- **Material:** 8mm-10mm HPL pre bonded boards
- **Support Frame:** MDF packers (as this cannot be seen)
- **Fixings:** H and Corner aluminum angles for fast installation
- **Finished Look:** Flush mounted panels with joint and corner strips

Simplicity Compact Fast Clad Panels

- **Material:** 10mm postformed compact grade laminate
- **Fixings:** Mechanical Fixings to rear
- **Finished Look:** Flush and seamless solid wall look – ideal for wet and clinical areas

FEATURES

- Panels are available in 3 different core finishes
- All framework provided on our supply and installation service
- FSC certified products can be supplied to assist with BREEAM requirements
- Panels are not modular and made bespoke to suit various panel widths
- Can be manufactured to suit various height requirements
- Wall Panels and Flashgaps are available in over 100+ laminate colours

MIRROR BOXES

Elegance, Efficiency & Hygiene

INTRODUCTION

Introducing the Delabie Mirror Boxes – an innovative solution designed to bring elegance, efficiency, and hygiene to commercial washrooms.

Available in both 4 in 1 and 3 in 1 configurations, these units combine multiple essential washroom functions into one sleek design. The 4 in 1 model integrates a mirror, soap dispenser, tap, and hand dryer (or paper towel dispenser), while the 3 in 1 option offers a mirror, soap dispenser, and hand dryer (or paper towel dispenser) for environments where a tap is not required. Both options feature a matte black finish with subtle ambient lighting. Sensor activation ensures touch free operation, creating a truly hygienic and user friendly experience.

With Delabie's renowned design and engineering excellence, these mirror boxes offer both functionality and a premium aesthetic, making them ideal for modern public spaces that demand beauty, utility, and durability.

FEATURES

- **4 in 1 Functionality:** Mirror, soap dispenser, tap, and hand dryer (or paper towel dispenser) integrated into one unit.
- **3 in 1 Functionality:** Mirror, soap dispenser, and hand dryer (or paper towel dispenser) for projects that do not require an integrated tap.
- **Touch Free Operation:** Infrared sensors for soap, water, and drying functions ensure maximum hygiene.
- **Premium Build:** 304 stainless steel cabinet with a matte black melamine finish and illuminated pictograms for intuitive use.
- **Water Efficiency:** Flow rate preset at 3 L/min, adjustable down to 1.4 L/min (4 in 1 models with tap).
- **Fast Hand Drying:** Air pulse hand dryer dries hands in 10–12 seconds with low energy consumption.
- **Large Soap Capacity:** 5L soap tank with a no waste pump suitable for liquid or foam soap.
- **Easy Installation:** Single electrical supply, top or recessed inlets, adjustable hinges, and concealed fixings.
- **Vandal Resistant:** Lockable cabinet with a standard Delabie key.

INSTALLATION

Your Complete Supply & Install Solution

At Total Laminate Systems, we offer a seamless supply and install service designed to provide a one-stop shop for all your project needs. With a dedicated team of four contract managers and 20 highly skilled installation teams, we deliver nationwide coverage with precision, efficiency, and professionalism.

COMPREHENSIVE PROJECT MANAGEMENT

From initial consultation to final installation, our end-to-end project management ensures every detail is handled with expertise. Our services include:

- **Site Surveys** – Ensuring accurate measurements and a smooth installation process.
- **CAD Drawings (Plan & Elevation)** – Delivering precise layouts for optimal design integration.
- **Off-Loading & Delivery Distribution** – Managing logistics efficiently to keep projects on schedule.
- **Professional Installation** – Expert fitters who specialize in laminate systems, working daily with these materials.
- **Cut-Outs** – Precisely executed following them being marked by others to meet sanitaryware specifications.

QUALIFIED & EXPERIENCED INSTALLATION TEAMS

Our fitters are fully certified with CSCS, SSSTS, and Health & Safety qualifications, ensuring compliance with industry standards. With Senior supervisors overseeing every project, we guarantee a high-quality finish every time.

WHY CHOOSE TOTAL LAMINATE SYSTEMS

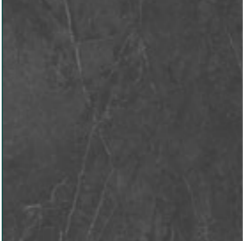

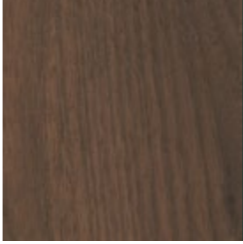

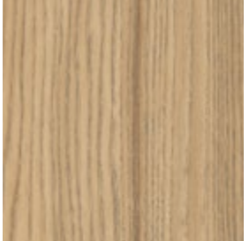

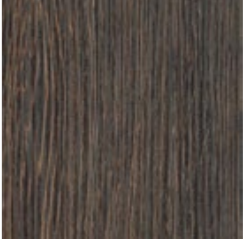

- **Nationwide Coverage** – No matter where your project is, we deliver.
- **Experienced Team** – Skilled professionals who specialize in laminate system installations.
- **Hassle-Free Process** – We handle everything from planning to final installation.
- **Commitment to Quality** – Precision, durability, and attention to detail in every project.

Trust Total Laminate Systems to deliver a streamlined, professional service that ensures your project is completed on time, on budget, and to the highest standards.

ENVIRONMENTAL & ACCREDITATIONS

Our commitment to Sustainability & Environmental Responsibility

At Total Laminate Systems, we recognize the importance of sustainability and take proactive steps to minimize our environmental impact. Our commitment to responsible practices is reflected in our environmental policies and industry accreditations, ensuring that every project aligns with the highest standards of sustainability and compliance.

SUSTAINABLE SOURCING & MANUFACTURING

We work closely with trusted suppliers to source environmentally friendly materials, prioritizing:

- **Sustainably certified laminates** from responsible forestry sources.
- **Low-emission, high-performance** materials that meet environmental regulations.
- **Recyclable and eco-conscious** products that reduce waste and carbon footprint.

INDUSTRY ACCREDITATIONS & COMPLIANCE

Our dedication to sustainability is backed by recognized industry certifications, demonstrating our adherence to environmental best practices:

- **ISO 9001** – ensuring that organizations consistently deliver high-quality products and services while improving customer satisfaction.
- **FSC® (Forest Stewardship Council) Certified Products** – Supporting responsible forest management.
- **Constructionline Gold** is a prestigious accreditation within the UK construction industry, demonstrating TLS’s commitment to quality, compliance, and best practices.
- **Safe Contractor approved** certification assures customers that TLS meet all of the standards and regulations they require.

REDUCING WASTE & CARBON FOOTPRINT

Through efficient project management, we minimize waste by:

- **Optimizing material usage** to reduce excess and offcuts.
- **Recycling** and responsible disposal of waste materials.
- **Energy-efficient** manufacturing and transport logistics to lower carbon emissions.

BUILDING A GREENER FUTURE

By integrating sustainable practices into everything we do, Total Laminate Systems is committed to delivering high-quality laminate solutions while protecting the environment for future generations. Our policies ensure that clients benefit from environmentally responsible solutions without compromising on durability, design, or performance.

Together, we can create a more sustainable future.
