

Case Study: Clandon Regis Golf Club

PROJECT OVERVIEW

Project Name: Clandon Regis Golf Club

Location: Near Guildford, Surrey

Client: Clandon Regis Golf Club

Sector: Leisure & Members' Club

The Brief

Clandon Regis Golf Club is an 18-hole, par 72 members' course situated at the foot of the Surrey Hills. As a club owned by and run for the benefit of its members, the project required washroom facilities that reflected a welcoming, well-maintained and high-quality environment. The club sought a solution that would serve both toilet and shower areas, deliver durability, easy cleaning, and a modern finish, while remaining robust enough to withstand daily member use.

Our Solution

Working directly with the club, Total Laminate Systems supplied and installed a coordinated washroom package built around our Elegance 13 flush-fronted cubicle system in Solid Grade Laminate (SGL). The specification was applied consistently across both toilet and shower areas and complemented by Solid Grade Laminate IPS duct sets with concealed cisterns, providing clean lines and simplified maintenance access. All items were manufactured using Polyrey laminate, selected for its performance and finish quality in leisure environments.

Manufacture & Installation

Total Laminate Systems delivered the project directly for the club, supplying and installing all washroom elements to ensure consistency of finish and quality. Careful coordination allowed the works to be completed efficiently within the operational requirements of a busy members' facility.

Outcome

The refurbished washrooms at Clandon Regis Golf Club provide a robust, low-maintenance and visually cohesive solution suited to a modern members' environment. The use of Solid Grade Laminate throughout ensures long-term performance while complementing the club's commitment to offering a relaxed and enjoyable experience for its members.
