

## Case Study: Hurlands Pickleball & Padel

### PROJECT OVERVIEW

**Project Name:** Hurlands Pickleball & Padel

**Location:** Farnham

**Contractor:** Oakwhite Contracts Limited

**Sector:** Leisure & Sports

### The Brief

Hurlands Pickleball & Padel is the UK's largest indoor pickleball and padel venue, offering premium courts, social play, and expert coaching within a welcoming, community-focused environment. The washroom facilities needed to reflect the premium nature of the venue, delivering durability across both toilet and shower areas while maintaining a clean, contemporary aesthetic suitable for a high-traffic sports setting.

### Our Solution

Total Laminate Systems supplied and installed a coordinated washroom package built around our Elegance 13 flush-fronted cubicle system in Solid Grade Laminate (SGL). The specification was applied across both toilet and shower areas to ensure robustness in wet and dry environments. The cubicles were complemented by Solid Grade Laminate vanity units, designed to house sit-on basins, creating a modern and cohesive finish throughout the facilities. All products were manufactured using Fundermax laminate, selected for its durability and suitability in demanding leisure environments.

## Case Study: Hurlands Pickleball & Padel

### Manufacture & Installation

Total Laminate Systems supplied and installed all washroom elements, ensuring quality control from manufacture through to completion. The use of Solid Grade Laminate throughout provided a robust solution capable of performing within a busy sports and leisure environment.

### Outcome

The completed washrooms at Hurlands Pickleball & Padel deliver a premium, durable, and cohesive solution that complements the high-quality sports facilities. The combination of flush-fronted SGL cubicles and coordinated vanity units ensures a long-lasting finish aligned with the venue's premium positioning.
