

## TLS Raptorguard Edge Protection System

### Introduction:

Raptorguard is a spray-applied, textured edge coating that forms a seamless, hermetically sealed barrier around table tops and other wood-based panel components. The coating protects vulnerable MDF edges from impact, moisture ingress and chemical exposure, significantly reducing maintenance and replacement costs.

### Key Performance Benefits:

- Zero V.O.C.'s (solvent free) - suitable for education, healthcare and public environments
- Impact resistant - designed for heavy daily use
- Water and chemical resistant - protect MDF edges from swelling and failure
- Hygienic, seamless edge - no joints or gaps, easy to clean
- Textured anti-chip finish with consistent rounded radius
- Durable

### Applications:

Raptorguard is suitable for a wide range of furniture applications including dining tables, classroom tables, conference tables and breakout furniture. Various shapes and panel sizes can be accommodated.

### Colour Options:

Black / Grey

### Typical Sectors:

Education, Healthcare, Commercial Offices, Leisure & Hospitality, Public Sector
